Having a Heat Wave: Ways to Prevent Heat-Related Illnesses

You may have noticed this past June was among the hottest on record. Heat exhaustion or stroke can occur when the body becomes overheated after being exposed to high temperatures. Now is the perfect time to brush up on ways to prevent these conditions.

Update: What's Available if
You Test Positive?

"Dr. Marianna Shimelfarb is wonderful and caring. I didn't feel rushed; she gave me plenty of time to discuss all of my concerns. The staff is very kind and professional, particularly Katie, who drew my blood. I didn't feel a thing!"

~ Summit Health Family Medicine patient

Lab Results Auto-Published Straight to Your Inbox

In accordance with the 21st Century Cures Act, Summit Health has begun to publish lab test results to the Patient Portal and My Summit Health app in some of our practices as soon as they are available.
